## Company Historical Review

**Muttico Technical Services Limited** is a privately owned and limited by shares electromechanical company established in 2008 and the sphere of Muttico Technical Services' activities encompasses Electrical & Mechanical Engineering, Power line Constructions, Man power supply, Mild Steel & Metal Fabrication of power fittings, Substation Site Development, Electrical Duct Bank Construction, Civil Engineering & Construction, Excavations/ Backfills/ Compactions for large Industrial projects such as Power, Refineries, Steel, Cement Projects. For purposes of its operations, the company has extended its physical presence to almost all regions of Uganda and maintains field teams at every district office of Umeme. Muttico a certified electrical installations contractor by ERA and prequalified by Umeme Limited, REA, UEDCL and others

**Muttico Technical Services Limited** is a brain child of three foresighted technocrats who with their experience and endless efforts have set up and established a successful running model electro-mechanical company in Uganda with a range of diversities and innovations in various electrical and Mechanical engineering concepts to fuel a joint national infrastructure development and wellbeing of Ugandans.

The company has ambitious plans to build a reputation for delivery and execution of Power line construction and maintenance (HV, MV & LV), Power and Energy consultancy and Maintenance programs in the energy industry all with a heart to produce excellent high-quality services and timely delivery.

Muttico Technical Services Limited's operations have covered all regions in the country. The phenomenal growth of Muttico Technical Services Limited is due to its proven skills in Project Management, Consistency in Quality. Safety implementation and completion of projects on time

The experience and expertise of Muttico Technical Services is reflected in the form of repeat orders from practically all reputed clients.

## Company Philosophy

Muttico Technical Services Limited conducts its business in an old-fashioned way through being Honest and Straight forward and keeping our word as to what we are assigned to deliver and when to deliver it thus, we strive to achieve the intended project goals for on every project. We oversee each project and personally respond to resolve any problems while delivering Project without compromising on Quality and we stand firmly behind everything we do.

Our success is founded on the Quality and Training of the men and women who comprise Muttico Technical Services Limited. It is our priority to spot, Head hunt and recruit Men and Women of the best talent in all our fields of operation of the Company.

We are proud of our history as a company and appreciate our royal clients who have made our passage from a small 1 crew company to the professional technical company with over 950 qualified personnel of today and with a fully integrated communication and project management system.

## Company's purpose

### Core Operational area:

- ⦿ Electrical Engineering Services

### Our Business Sectors:

- ⦿ Power line construction (HV, MV & LV), Maintenance & Underground Cable Systems works.
- ⦿ Mechanical works & Fabrication: X-arms, Transformer Platforms Channels, Feeder Pillars, 3-Phase Meter boxes and all Metal works.
- ⦿ Civil engineering Services.
- ⦿ Manpower Training and Supply.
- ⦿ Substations Construction and Maintenance.
- ⦿ Distribution Substation Installation and Maintenance.
- ⦿ Power line Vegetation Clearance

## Vision Statement

---

“Muttico Technical Services Limited’s vision is to become the most efficient service provider and technical partner of choice in the electrical, mechanical, civil construction and manpower provision by 2020.”

## Mission Statement

---

“Muttico Technical Services Limited’s mission is to provide quality technical services and man power supply in the East and central region of Africa.”

## Our Core Values:

---

- 🕒 Clean, orderly and safe working conditions for our employees and other expectations.
- 🕒 Consistent provision of high quality and timely services,
- 🕒 Conducting business with customer focus, honesty, integrity and ethical standards
- 🕒 Responding promptly and accurately to client’s queries.

## Our objectives

---

- 🕒 To grow and become a highly profitable and reputable technical company.
- 🕒 To provide electrical and mechanical engineering services to a wide range of clients locally and internationally.
- 🕒 To set up a team of skilled personnel in the areas of electrical, mechanical and civil engineering through capacity building and periodical training sessions.
- 🕒 To develop partnerships and networks with other business company for financing, capital investments and governance support to enhance the internal effectiveness and viability of the company.
- 🕒 To attract and cooperate with international Energy Companies in investing and establishing Electrical Plant and Product industries.

## Our Commitments

-  Enhancing our local reputation in Construction industry and actively pursuing initiatives in sectors and geographic areas where we can deliver superior value through its competitive advantages.
-  Maintaining leadership in project management capability, supported by state-of-the-art project management systems.
-  Being a multicultural company proud of our ability to operate in many languages and adapt to the culture of the country and communities in which we work.
-  Take part in the development of projects requiring equity participation, and in the privatization of government-owned facilities.
-  Adopting a flexible and open approach towards the needs of our clients by listening to and respecting their views, and being ahead of emerging trends and potential technological breakthroughs.
-  Developing a stable client base with significant repeat business. Generating a sustainable long-term profit, and achieving optimum growth for our shareholders to trust that consistently remarks us in the top global engineering, procurement and construction (EPC) companies.

## Code of Ethical Conduct in Business

-  It is our Code of Ethics policy that Muttico is to maintain the highest standard of ethics in the conduct of its business and in its relations with whomever it does business or is associated — Such as its employees, directors, shareholders, customers, associates and suppliers, as well as with governments, the media, the public and international Partners.
-  The company's integrity and reputation for ethical practices are among its most valued assets and are essential elements in its continued quest for sustained profitability.
-  Muttico is committed to increasing its value to customers, employees and shareholders by profitably providing useful products and services to all end-users and Clients.
  - (a) Avoid associations with businesses and organizations which are in conflict with our code of ethics
  - (b) Strive to provide works, services and supplies of high quality and accept full responsibility for all works, services or supplies provided
  - (c) Not offering gifts or hospitality directly or indirectly, to staff of a procuring and disposing entities that might be viewed by others as having an influence on a government procurement decision and also not engaging in deceptive financial practices, such as bribery, double billing or other improper financial practices;

## Description of Company's Activities

### 1. Power line construction;

Muttico Technical Services serves in power line/ energy industry with pride and integrity. We are skilled, knowledgeable, experts and with all equipment for delivering power line projects ranging of 11 KV, 33 KV, 132KV & 220KV. Our professionals are constantly trained in covering a vast area of projects in power line construction and we are ranked among the best experienced technical companies in the Uganda.

### 2. Man-power supply

Banking on the rich expertise of our professionals, Muttico Technical services is a well-known organisation involved in rendering credible manpower supply services. All these services of man power supply are widely admired for high quality and timely work which is authentic and excellent. Professionals involved in the process are trained on regular basis to render the most effective and reliable solutions to our clients and partners. The credible MUTTICO human resource services are highly demanded in government as well as in corporate and industrial sectors.

### 3. Mild steel and Metal Fabrication of power fittings

Muttico technical services Ltd sophisticated manufacturing technologies enable us to hold precise tolerances for every product produced. We keep our industry knowledgeable and equipment up to date.

### 4. Substation Development and construction

Industrial, commercial or residential power sub stations is where our company constantly puts resources together and provide the client with turnkey development package from ground breaking to finished projects.

## 5. Electrical Duct Bank construction

Muttico Professionals are recognised leaders in underground electrical construction. We provide a complete range of services for commercial projects covering a vast area of business in the energy sector.

## 6. LV and MV installations

Design, Supply and Construction of LV and MV installations

-  Mainline and non-mainline compact secondary sub stations
-  Switch gear, protection and control relays
-  Transformers installations
-  Capacity batteries and filters
-  UPS systems

## 7. High Voltage Power Line Construction

Sub-contract for design, Supply and installation of HV Overhead Transmission line with Jyoti Structures Ltd 2007 to August 2017

### Project Executed

- ❖ Construction of 220Kv High Voltage Line from Bujagali to Kawanda (98kms), from Kawanda to Mutundwe (15km) and from Bujagali to Nalubale (5kms) 2007 - 2017
- ❖ Construction of 220Kv High Voltage Line from Mbarara to Miramba (79kms) 2013 – Feb 2017

## 8. Mobile Substations, Substation automation and monitoring systems

- Revamping of existing installations
- Making cable joints and cable terminations of LV, MV as well as HV by certified technicians.
- Delivery and installations of LV, MV, and fibre optic cables
- Engineering and assembling of custom-made solutions for switching, protecting and transforming in high power applications up to 230KV.
- LV and MV transformer containers for temporary power up to 6MVA with voltages up to 36KV.

## 9. Renewable Energy – Thermal and Solar Power;

### Renewable Energy Partners for the Construction of 20MW/ PV Grid-connected Power Generation Project in Kabulasoke, Gomba District -Uganda.

The project consisted of the following components as of below: -

Item	Specification	Unit	Qty
Panels	300wp	Pcs	76934
Container inverter	EA1MTM	Pcs	19
Combiner box	16 inputs, lighting protection	Pcs	228
Boost transformer	1250KVA	Pcs	19
HV distribution and AC combiner station	HV distribution and AC combiner station measuring system	set	1
Solar panel Bracket	HDC steel 20MWp	set	1

## 10. Maintenance Programs and Civil Engineering Services

-  Undertakes Inspection and maintenance contracts for gensets
-  Rewinding of motors and generators.
-  Measurements and load tests.
-  Civil engineering and construction

## 11. Excavations/Backfills/Compactions

Muttico can provide all the excavation and utility construction required by a project to provide the customer with the convenience of working with only one contractor. Muttico can provide highly trained personnel with proper equipment to satisfy all the clients excavation needs; from stripping the top soil, mass excavation, to finish grade as well as laying any sanitary sewers, storm drainage and water mains associated with the project.
